## About Harikrushan Multimedia Institute

Harikrushna Multimedia Institute is dedicated to shaping the next generation of creative professionals through a modern approach to multimedia education.

Established with a vision to make students industry-ready, we offer skill-based career courses in Animation, VFX, UI/UX Design, Digital Marketing, Video Editing, Graphic Design, and other creative and technical fields.

Our training blends theoretical knowledge with hands-on practical experience, ensuring students gain real-world skills while exploring their artistic potential. Guided by experienced instructors and supported by live project exposure, our programs foster innovation, problem-solving, and professional growth.

With a focus on the latest technological trends and a user-friendly learning environment, Harikrushna Multimedia empowers students to transform their imagination into career-ready expertise. Our transparent placement support connects students with leading studios and companies, helping them confidently step into the digital creative industry.

Become a part of this journey. Learn beyond your imagination and explore new dimensions of the digital world.

### >>> Mission <<<

To spread the latest industry knowledge to students and make them employable in their selected job profession.

### >>> Vision <<<

We are committed to producing high-quality manpower to fuel the ever-growing needs of the various verticals of the Media & Entertainment industry.

## Career + Skill + Technology

Harikrushna Multimedia Institute offers a wide range of industry-relevant, skill-oriented programs that equip students with the knowledge and hands-on experience needed to build a successful and rewarding career.

## Graphics Design

Graphic design is the art of creating visual content to communicate messages effectively. It uses typography, images, colors, and layouts to convey ideas and emotions in a visually appealing way. Graphic designers create visual content for branding, advertising, social media, and digital platforms.

### Course Content

- Typography
- Layout and Composition
- Color Theory
- Visualization Techniques
- Branding and Identity
- Realistic Visualization
- Print and Digital Media
- Image Manipulation

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

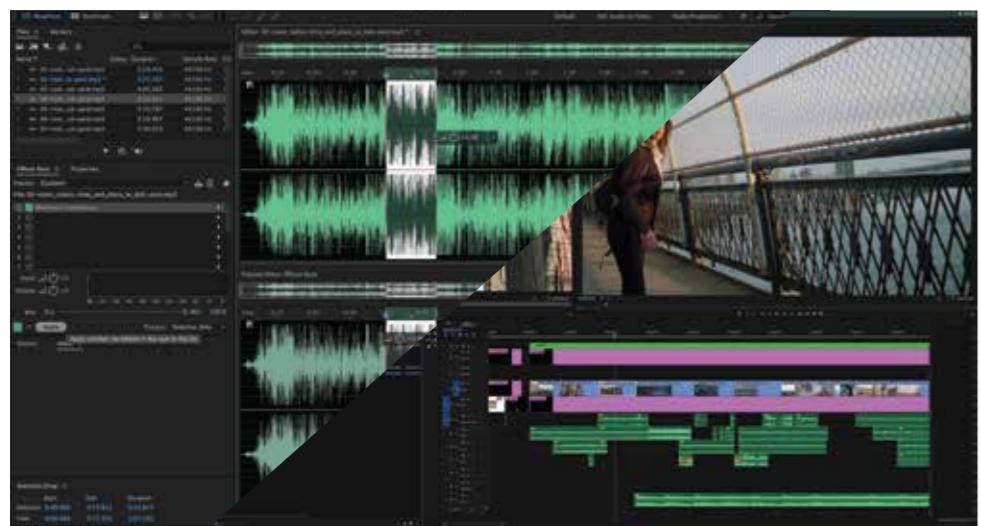

Adobe Photoshop, Adobe Illustrator  
CorelDraw, Adobe InDesign

#### Job Profiles

Concept Artist | Graphic Designer  
Social Media Designer & more...

## Video Editing

Video editing is the art of arranging video footage, audio, and effects to create a captivating final video. It includes selecting and trimming clips, adding transitions, titles, visual effects, adjusting color and audio, and rendering the final output.

### Course Content

- Introduction to Video Editing
- Understanding Video Formats
- Organizing Footage
- Basic Editing Techniques
- Adding Audio and Music
- Applying Visual Effects
- Text and Titles
- Advanced Editing Techniques

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Adobe Premiere  
Adobe Audition  
Adobe After Effects

#### Job Profiles

Video Editor | Social Media Editor  
Sound Creator & more...

## 2D Animation

2D animation refers to the creation of moving images by displaying a sequence of individual frames in a two-dimensional space. 2D animation is focused on flat, two-dimensional surfaces. It's a traditional form of animation that has been used in various mediums such as cartoons, films, video games, and advertisements.

### Course Content

- Storyboarding
- Frame Animation
- Study Motion
- Animate Backgrounds
- Tweening
- Lip syncing
- Secondary Motion
- 2D Model Sheet

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Adobe Illustrator  
Adobe Animate

#### Job Profiles

2D Animator | Story Board Artist  
Character Animator & more...

## 3D Animation

3D animation is the process of creating moving images in a three-dimensional (3D) environment, giving the illusion that these digital objects are moving through a 3D space. This is done by using computer software to create and manipulate digital objects, or by using specialized hardware such as motion capture.

### Course Content

- 3D Modeling
- Texturing and Materials
- Lighting and Rendering
- Visualization Techniques
- Animation Principles
- Design Visualization
- 3D Background

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Adobe Photoshop  
Adobe After Effect  
Autodesk Maya

#### Job Profiles

3D Animator | 3D Artist  
3D Character Animator & more...

## 3D Architectural

3D Architectural Visualization is the process of creating realistic 3D visuals of buildings and architectural designs using computer software. It helps architects, designers, and developers clearly present their ideas and show how a structure will look before construction begins. This technique is widely used for design planning, client presentations, and real estate marketing.

### Course Content

- 3D Modeling
- Texturing and Materials
- Lighting and Rendering
- Visualization Techniques
- Client Presentations
- Design Visualization
- Interior Design
- Exterior Design

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

3ds Max + Corona / V-Ray  
Autocad (Only For Architectural Use)  
Sketchup, Lumian

#### Job Profiles

Architectural Designer | 3D Visualizer  
3D Artist & more...

## 3D Jewellery Design

3d Jewellery Design Uses Computer Software To Craft And Visualize Jewelry In 3d, Offering More Creative Freedom, Quicker Prototyping, And Realistic Representation Compared To Traditional Methods. This Approach Is Cost-Effective, Customizable, And Enables Easy Collaboration While Reducing Material Waste.

### Course Content

- 3d Modeling
- Texturing And Materials
- Lighting And Rendering
- Visualization Techniques
- Enhanced Creativity
- Realistic Visualization
- Materials
- Realistic Rendering

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Adobe Photoshop  
Autodesk 3d Max  
V-Ray / Corona

#### Job Profiles

3D Designer | 3D Render Artist & more...

## UI/UX Design

In digital design, user interface (UI) refers to the interactivity, look, and feel of a product screen, while user experience (UX) covers a user's overall experience with the product or site.

### Course Content

- Principles of Design in UI/UX
- Creative Vector Illustrations
- Design Thinking Process
- UX Research Process in UCD
- UX Informative Architecture
- UI Design Principles
- Wireframing and Collaboration
- Prototyping with Figma
- UX Research Fundamentals
- Gen AI for UI/UX Design

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Adobe Illustrator  
Adobe Animate  
Figma / Gen AI Tools

#### Job Profiles

2D Animator | Story Board Artist  
Character Animator & more...

## Digital Marketing

Digital marketing uses internet and digital tech (social media, search engines, email, apps) to promote products, offering measurable results and direct customer engagement, unlike traditional marketing, by leveraging tactics like SEO, content, PPC, and data to connect with audiences where they spend time online.

### Course Content

- Social Media Marketing
- Meta Business Suite
- Instagram Marketing
- Facebook Marketing
- YouTube Marketing
- Content Strategy
- Basic Google & Meta Ads
- SEO
- AI Tools + Basic Automation

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Google Ads  
Google Analytics  
Meta

#### Job Profiles

Digital Marketing Executing  
Social Media Strategist  
Marketing Data Analyst

## Visual Effect (VFX)

VFX means Visual Effects, referring to digitally created or manipulated imagery added to live-action footage in post-production to create environments, creatures, or events impossible or impractical to film in reality, such as fantastical worlds, explosions

### Course Content

- Understanding the VFX Pipeline
- Texturing and Materials
- Lighting and Rendering
- Visualization Techniques
- 3D FX, Dynamics & Simulations
- Compositing with Nuke
- Cinematic Edits
- Virtual Production

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Maya / Adobe After Effects / Nuke  
nCloth / X-Gen / 3D Equalizer  
Adobe Photoshop

#### Job Profiles

VFX Generalist / FX Artist  
Roto Artist / Compositor & more...

## Game Design

Game design is the process of creating and designing the rules, mechanics, gameplay, and overall experience of a video game or any interactive entertainment product. It is a multidisciplinary field that combines elements of art, storytelling, psychology, programming, and more to craft engaging and enjoyable player experiences.

### Course Content

- 3D Modeling
- Texturing and Materials
- Lighting and Rendering
- Visualization Techniques
- Level Design
- Design Visualization
- Understand Game Design
- 3D Environment

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

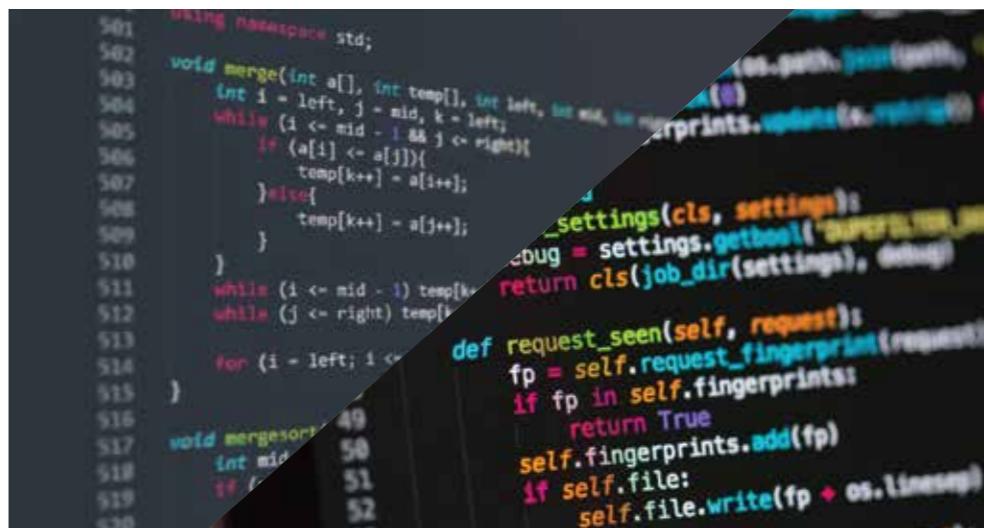

Adobe Photoshop, Adobe Illustrator  
Adobe After Effect, Blender

#### Job Profiles

3D Designer | 3D Render Artist & more...

## c/C++/Java/Python

C is used for system and hardware-related programming., C++ supports object-oriented programming and high performance., Java is platform independent and used for application development. Python is easy to learn and widely used in modern technologies.

### Course Content

- Variables & Data Types
- Operators
- Input / Output
- Control Statements
- Functions / Methods
- Arrays & Strings
- Object Programming
- File Handling

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

C / C++  
Java / Python

#### Job Profiles

c/C++ Developer / Java Developer  
Python Developer & more...

## Android Development

Android app development involves designing, building, testing, and maintaining applications for devices running the Android operating system. Developers use Java or Kotlin along with Android SDK tools to create user-friendly, secure, and high-performance mobile applications.

### Course Content

- Social Media Marketing
- Meta Business Suite
- Instagram Marketing
- Facebook Marketing
- YouTube Marketing
- Content Strategy
- Basic Google & Meta Ads
- SEO
- AI Tools + Basic Automation

#### Lecture Duration

2 hours per day & 6 days a week  
2 hours per day practice with assignments in class

#### Digital Mastery

Android Studio / Kotlin  
Java / Retrofit / MySQL  
PostgreSQL / DevOPS

#### Job Profiles

Android Developer / DevOps Engineer  
Mobile App Product Manager & more...

## PGA

### **Program In Graphics & Animation**

Enrolling in the Graphics & Animation course at Harikrushna Multimedia empowers you to excel in Graphics Design, Motion Graphics, and 3D Animation. This intensive program thoroughly acquaints you with a variety of design elements. The curriculum includes digital design, page layout, video editing, and 3D animation.

#### **Career Scope**

- Graphics Designer
- Character Designer
- Background Artist
- Digital Painter
- 3D Modeler
- Texture Artist
- Lighting Artist
- Rigging Artist
- Technical Animator
- Visual Development Artist
- Matte Painter
- Previsualization Artist
- Visual Storyteller
- Social media reel artist
- Multimedia Designer
- Motion Graphics Animator
- Video Game Designer
- Social Media Visual Designer
- Video Editor

#### **Course Content**

- Adobe Illustrator
- Adobe Photoshop
- Adobe After Effects
- Adobe Premiere Pro
- Adobe InDesign
- Adobe Audition
- CorelDRAW / Animate CC
- Autodesk 3ds Max
- V-Ray
- Blender
- Portfolio design

#### **Lecture Duration**

*1 hour per day & 6 days a week  
2 hours per day practice with assignments in class*

**Course : 12+2 Months**

## PGD

### **Program In Game Design**

Enrolling in the Game Design course at Harikrushna Multimedia empowers you to excel in the dynamic fields of Game Development, Interactive Media, and 3D Animation. This immersive program thoroughly familiarizes you with a diverse range of design elements crucial for creating captivating games. The curriculum covers interactive storytelling, gameplay mechanics, level design, video game aesthetics, and 3D animation techniques, providing a comprehensive foundation for a successful career in Game Design.

#### **Career Scope**

- Game Designer
- Level Designer
- Game UI Designer
- Gameplay Tester
- Game Artist
- 3D Modeler
- Character Designer
- Game Writer/Narrative Designer
- Game Animator
- Sound Designer
- Game Tester/QA Analyst
- Game Producer
- Monetization Designer

#### **Digital Mastery**

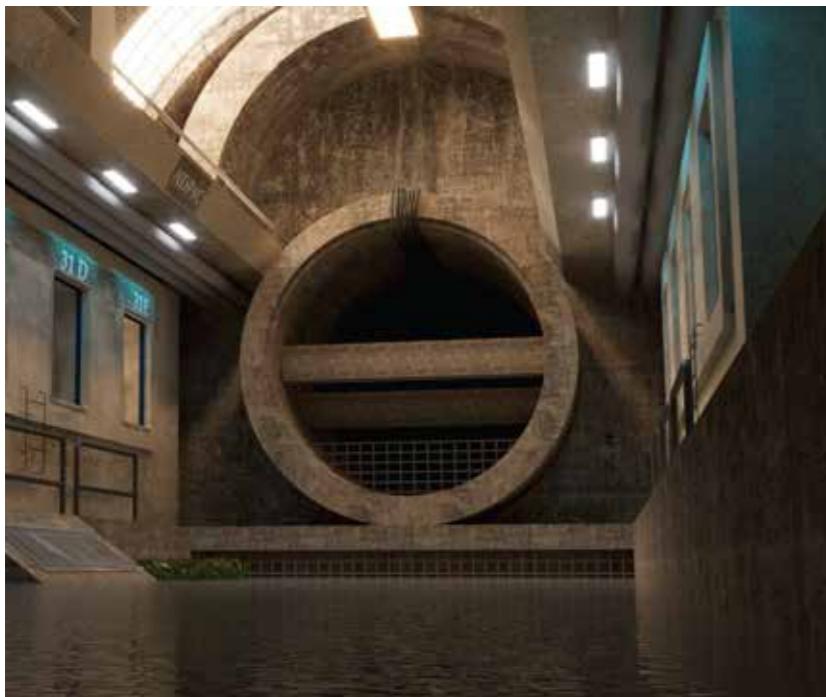

- Adobe Illustrator
- Adobe Photoshop
- Adobe After Effects
- Adobe Audition
- Autodesk Maya
- Arnold render
- Blender
- Substance painter
- Portfolio design

#### **Lecture Duration**

*1 hour per day & 6 days a week  
2 hours per day practice with assignments in class*

**Course : 12+2 Months**

# Student Work

## Events & Workshop

# Why Choose Us ?

**Studio internship**

**100% placement assistance**

**Regular industry visits**

**Internal competition**

**Creative and technical skills**

**Experienced faculties**

**Regular workshops & seminars**

**Project & portfolio creation**

**Unlimited practice hours**

**Collaborative learning approach**

**Guest lectures from industry experts**

**Incubator program as per studio pipeline and workflow**

**Experiential learning through practical & hands on training**

**Commitment to quality education**

We are committed to delivering exceptional quality and service that exceeds expectations. Our team combines expertise, innovation, and a customer-focused approach to ensure every experience with us is seamless and rewarding.

# Congratulations

Proud Moment!
